MR. JOHNSON: I'd like to introduce myself. I'm no stranger to these meetings. I am Chip Johnson, chief officer of Family and Community Engagement in education.

This meeting is part of the proposed reassignment boundary of National Teachers Academy, which was formally introduced on December 1st. I will say formally proposed to the Board on December 1st following months of community engagement leading up to the announcement.

We are here today on behalf of the CEO, Dr. Janice Jackson, to share some basic information and to hear from you about the specific proposal.

As I mentioned a moment ago, the purpose of this meeting is to allow CEO Jackson and the board to hear feedback from you about the specific proposal under discussion.

I will start by reading a brief introduction on logistics, and then I will run through the presentation that you might have seen last week if you were here.

After this, we will allow you

time for you and the public comment.

2.0

2.2

The meeting will end approximately 8:00 o'clock promptly. I'm hoping that will be 8:00 o'clock. And then I would also like to encourage you -- Reverend Neff cannot be here. He was going to be here to introduce himself to you and to welcome you into his church, but he did want to express that he wanted to maintain the fidelity of this being a worship church service. If we can agree to disagree and just keep our language very respectful during our public comment, that will be very much appreciated.

In addition, today we have representatives from the Office of Diverse Learning and Supports Services, Shani Boone and Luis Rodriguez. Students Living in Temporary Situations, STLS program, Onshelle Blackmon. And then from the Talent Department, we have Tiffany Taylor being represented here.

They will be available for 30 minutes after this meeting to answer any questions that you may have specific to this proposal.

And please note that the conversations at those tables will not be recorded.

2.0

2.1

2.2

We do have a stenographer here that is taking notes to present a public record for all comments made in tonight's meeting.

The community meeting will take place over a course of two hours, and then I will provide a brief presentation of proposed action followed by public comment.

If you did not have a chance to comment, you may fill out the card in the back or e-mail your comments to CPS -- I'm sorry, transitions@cps.edu. You can also submit your written comments at the registration desk where a staff member has note cards that they will provide for you. Please reference the transition plan regarding the school action at the website cps.edu/transitions.

In addition, meeting summaries for each community meeting will be made available online at cps.edu/transitions within five days of the meeting.

This meeting is part of a broader

Page 6 1 timeline regarding the proposed actions. part of this process, CPS began publishing 3 draft guidelines for school actions on October 1st and then announcing proposed school actions on December 1st. This followed most of 5 community engagement and input. 6 Following this announcement, CPS hosted two community meetings, this is the second one, and then one public hearing that 10 will be held at the end of this month, 11 together, additional public feedback. 12 After these meetings and the 13 hearings, we will review all input. 14 And after this, CEO Dr. Jackson 15 will make a recommendation to the board to vote 16 on the proposed action. Following the potential 17 18

recommendation, the board will vote on whether or not to approve the proposed action at the February board meeting.

23

24

Over the past week, we have engaged various communities on this proposal and got feedback that formed adjustments to the proposal. We heard from various communities,

including parents and community members at

Drake, Haines, Healy, NTA, South Loop and Ward.

We heard from community members from Armour

4 | Square, Bronzeville, Bridgeport, Chinatown and

South Loop. And also heard from our aldermen

6 and our state representatives.

23

24

We have conducted three large community meetings between May and June of 2017. We had five meetings with the steering committee comprised of community leaders across these groups. Over 30 small-group meetings with various stakeholders and received over 900 e-mails at transitions@CPS.edu.

From this engagement, we had a lot of feedback from various perspectives, including those interested in a high school and potential boundaries, as well as others who want to maintain NTA as an elementary school, including its strong culture and staff.

We have worked to adjust our proposal in response to various points of feedback, including expanding South Loop to incorporate all of NTA's current boundary and releasing an initial draft boundary for

community feedback.

23

24

We want to take time to explain the proposal today and where it stands and continue to gather feedback from these community meetings.

In terms of the proposal, itself, all proposed changes are supposed to begin school year 2019-20. There are two key components here. On the elementary school side, this proposal involves a new state-of-the-art South Loop facility, three-campus model at South Loop and expanding boundaries of South Loop to incorporate all of NTA's current boundary over time.

On the potential high school conversion, this proposal involves NTA, rather than converting to a high school over time, transitioning grades pre-K through 3 to South Loop while allowing students in grades 4 through 8th grade to remain at NTA or transfer to South Loop and provide a guaranteed seat for all NTA students to attend the high school, regardless of where they live.

In the following slides, we will

go through a few key details of this proposal.

1

3

5

6

7

10

11

12

13

14

15

16

17

18

19

2.0

21

2.2

23

24

In terms of the high school conversion timeline, this proposal involves the following changes for 2019-20: Transition of pre-K program at NTA to South Loop; enrolling incoming kindergarten students at South Loop; rising students in grade 1st through 3rd grade will be reassigned to South Loop or have the option to transfer to another school; NTA students in grade 4 through 8th grade to either stay at NTA or to transition to South Loop.

All NTA students will have a guaranteed seat at the high school regardless of where they live.

Starting in school year 2019-20, NTA will begin a gradual conversion to a high school over time.

As you can see below, NTA would contain students 4 through 9 in 2019-20. And then in subsequent years, NTA would gradually phase in high school grades while phasing out the elementary school grades.

So by 2022-23 school year, NTA would contain students in grades 7 through 12.

And in school year 2024 through 25 and beyond, NTA would only contain the high school grades 9 through 12.

2.0

2.1

2.2

We will ensure that the high school and elementary grade transitions will be managed with the appropriate safety and security considerations.

In terms of the transition for specific NTA students, starting in 2019-20, the pre-K program at NTA will be located in South Loop.

For students in the neighborhood program, rising kindergarten students living in the current boundaries of NTA will not offer kin -- I'm sorry. In the current boundaries of NTA, will be zoned to South Loop. NTA will not offer a kindergarten option.

Rising 1st through 3rd grade students at NTA will be reassigned to South Loop regardless of where they live. They will also have the option to transfer to other elementary schools. Staff from the Office of Access and Enrollment will help students and families if they wish to explore other options.

Rising 4th through 8th grade students can stay at NTA through graduation or transfer to South Loop's neighborhood track.

They can also decide to transfer to South Loop in subsequent school years.

For students in the regional gifted center program, which we eventually refer to as RGC, kindergarten through 3rd grade will be located at South Loop. In subsequent years, the RGC program will phase in grades at South Loop.

Rising NTA RGC students will be reassigned to the RGC program at South Loop. They will also have the option to transfer to other elementary schools.

Staff at the Office of Access and Enrollment will help students and families again if they wish to explore other options.

The RGC program for grades 4 through 8 will remain at NTA and phase out over time. They would also have the option to transfer in to South Loop neighborhood track in school year 2019-20 and in future years.

In terms of how the elementary

2.0

2.1

school boundary will change, South Loop's boundary will expand to include all of NTA's current boundary over time. This boundary change over time is in sequence with the transition of elementary school students and the phaseout of elementary school grades at NTA.

2.0

2.2

So, for example, in school year 2019-20, kindergarten through 3rd grade at NTA transitions to South Loop; and likewise, the boundary for kindergarten through 3rd grade students in NTA's current boundary will be in South Loop.

(Interruption by audience)
(Audience chanting.)

MR. JOHNSON: Thank you very much. Kindergarten through 3rd grade at NTA transitions to South Loop; and likewise, the boundary for kindergarten through 3rd grade students in NTA's current boundary will be South Loop.

NTA will offer grades 4 through 8, so boundaries for students -- excuse me. I understand your passion, and I understand your

Page 13 1 need, but there are other people that want to listen to the proposal. There are other people 3 that have the same passion as you do and have some choices they need to make. I ask you respect the equity of the presentation. 5 Thank 6 you. (Audience shouting) 8 NTA will offer grades 4 through 8, so the boundaries for students in grades 4 9 10 through 8's NTA boundary will still be NTA. 11 All students residing in this boundary in grades 4 through 8 will also have 12 13 the option to attend South Loop Elementary 14 School. 15 We recognize that this change will be difficult for some families and 16 17 students. We engaged both NTA and South 18 Loop --19 (Shouting by audience.) 2.0 MR. JOHNSON: We engaged both NTA and 2.1 South Loop parents in developing this transition plan, including multiple steering 22 committees. 23 24 Ultimately, we developed a draft

Page 14 1 plan that budgets 3.5 million to support that transition of NTA students to South Loop and the coming together of these two school 3 communities. 5 Some of the key transitions that 6 we included were: The budget for variety and events activities designed to support the community building and culture integration starting the year prior to any proposed 10 actions. 11 Another one was the creation of a Joint Culture and Climate Team comprised of 12 13 staff, parents and student representatives from 14 both NTA and South Loop. 15 Then the principal and 16 school-based transition coordinators to assist 17 with implementation of new programs and 18 practices at each school. We would also provide logistical support, examples are 19 2.0 recording transfers and the like, and the other supports identified by both schools' 2.1 2.2 leadership. 23 Implementation of restorative

practices: Professional development and

24

training opportunities for all school staff and transportation for transferring NTA students to commute to South Loop Elementary School.

24

In addition, as part of this proposal, all NTA students as of school year 2018-19, regardless of where they live, will have a guaranteed seat at the high school as they matriculate from elementary school to high school.

UNIDENTIFIED SPEAKER: You might be loud, but you ain't making any sense.

MR. JOHNSON: That's your opinion.

The slide that you see here, regarding the feedback from the last meeting regarding capacity and enrollment in the high school, the data shows that under a reasonable set of assumptions based on current data, all students from the enrollment boundary, including both neighborhood and preference boundary, will be able to attend.

participant will have two minutes to speak.

You will receive notice with 30 seconds left at
the two-minute mark.

Now, before we get started, each

Page 16 1 Can I see where the timekeepers 2 Timekeepers, raise your hands. 3 stenographer and note-taker are present to 4 report comments --5 (Audience shouting.) 6 MR. JOHNSON: -- meeting and ensure CPS 7 fully captures community feedback. (Audience chanting "Black Lives Matter") 9 MR. JOHNSON: Thank you. 10 We would like to begin our public 11 comment section. Once again, I'm going to say for 12 13 the sake of the Chicago Public Schools, that 14 you try to maintain respect. 15 Will speakers one through five 16 please line up. Speakers one through five. I hope to continue the remarks over the 17 18 disrespect. Speakers one through five, please. 19 (Audience shouting.) 2.0 Speakers one through five. MR. JOHNSON: 2.1 If I don't have one through five, I will take 22 six through ten. One through ten, please. 23 You will be able to speak from 24 the microphone here on this side, and then you

will be able -- we're going to use one

 2 microphone. You will be able to speak on this

3 | mic here.

6

10

13

14

16

17

18

All of our speakers, we'll

5 | have -- thank you very much. I appreciate it.

I'm going to still be respectful. We're going

to have speakers one through ten at the back.

Our first speaker.

MS. WILSON: Good evening. My name is

Brittany Wilson. I am speaking on behalf of

(inaudible). We are part of the agency

12 development. They will be excited to be within

the boundary of the near south proposal, as

education, as you know, today is most

15 important.

This will give families positive education selection for their children in their own community. Thank you.

MR. JOHNSON: Second speaker.

UNIDENTIFIED SPEAKER: I am a proud parent

of two NTA scholars. My son is in third grade.

22 My daughter kindergarten. I've attended all

the community meetings. This is the first time

24 I have come to speak.

My purpose for doing so is to address some of the comments that had been made from outside communities.

2.0

2.1

My children have ridden two trains with their father every single day since they were in kindergarten.

At the last meeting, someone asked us if we have been south of 37th Street. We live in the hundreds. The Red Line stops directly in front of NTA. And amazingly, they have not had a single tardy with public transportation.

I would also like to add, they travel 13 miles to school, that's 13. And I know that math is hard for some of you, so that's 26 miles round trip. I drive them home during rush hour every day.

So when I hear stories how hard it is for someone's high schooler to travel four, six or eight miles, I'm not buying that as a reason to destroy 750 people's children for a high-quality education.

Under the new plan, my son can stay at NTA in a construction zone, my daughter

- gets put into South Loop, and my
- two-year-year-old wouldn't have a seat at
- 3 | either one.
- We will become one of those
- families all too common fed up with CPS.
- 6 | Splitting children across three different
- buildings is not good for any child.
- The next issue I would like to
- 9 address is when I hear people say I don't have
- 10 a high school. Everyone has a high school.
- 11 The high school in my neighborhood is Level 2.
- 12 | But I would never say I do not have a high
- 13 school. Okay?
- 14 | If you are insinuating that this
- school does not exist, I hear you. If you do
- not like your neighborhood high school, that's
- 17 fine. Talk about -- everyone has a high
- school. You are insinuating to the people that
- are there that is not a good enough school for
- you. That is not -- fine, say that, but don't
- 21 | say I do not have a high school.
- 22 | It will be -- when I was
- 23 explaining this to my son, it would be as if he
- 24 asked me for a bike, and he wanted a new bike,

and said I don't have one. Okay. He has a bike. It would be as if he asked me to steal his friend's and replace it with his. Thank you.

2.0

2.1

2.2

STUDENT SANDERS: My name is Miles Sanders, and I am a 3rd grader at NTA. I have been there since I was in kindergarten. I have so many friends, I can't even keep count of them. Many of them are not even in my grade. It's like a second family to me.

NTA has the most amazing teachers. They make learning super exciting and fun. For example, we just had a colonial day (inaudible) on colonial times. It was so much fun and lots of parents came to participate. All of our teachers explained things when someone didn't understand. All of our -- they were there to help.

We also have a program called Second Step. We get to learn with other kids in other classes and get to know them. This has helped me make new friends outside of my regular home. We can compare things, I like one thing and they might like another. They

encourage you to be partners with other classes.

2.0

I've also gotten to know lots of other teachers, and they're really, really nice.

Lastly, I think the plan to convert NTA to a high school is wrong. It will hurt many families, including mine. I have two younger siblings and my sister's here at NTA in kindergarten. My brother is two years old.

Like many families, we will be split apart. I would stay at NTA, my sister has to go to South Loop and my brother can't go to either one. We would have to go three different buildings. I would have to make all new friends at a new school. You will be tearing apart the NTA community that I love.

This plan will hurt many families and destroy a great community. Thanks.

NADIA: Hi. My name is Nadia. And I'm an NTA parent, as well, with two children, one in fourth grade, one in kindergarten. And I wanted to put on the record a few e-mails that we've become aware of since this whole

situation has -- since we've been made aware of the situation.

2.0

2.2

This is an e-mail from Alderman Pat Dowell to Barbara Byrd-Bennett, previous CEO of Chicago Public Schools. Barbara and Mike: I have spoken to the mayor a few times about the need to address both the overcrowding of South Loop Elementary and the need for an area high school in the area. David Duval has also attended meeting over at (inaudible) of over 300 South Loop residents where these issues were also raised.

Recently, the mayor attended an Easter egg hunt in the South Loop where the mayor said to the president of the neighborhood association that he would work with neighboring high schools and NTA. I want to get started on this while CHA finds -- while the CHA is moving on plans for the redevelopment of the (inaudible). CHA board selection of the developer and participate to occur in June which will bring between 670 to 1100 new units of housing to the South Loop. This does not include all of the housing that is currently

under construction or the housing anticipated to develop because of the investment made by NPEA in this area. This is a matter of urgent concern. Please advise."

This e-mail was dated April 14th, 2015. This is evidence that this plan is stemming from a political exchange between the mayor and the neighborhood alliance, a very wealthy group.

It also points a desire to remove these children from the area that -- and that will be achieved by removing NTA as an elementary school option.

It is purposely segregating black and brown kids out of the area before they return. Thank you.

MS. SHMITT: My name is Veronica Shmitt.

NTA parent of a second grader.

For the record, clear evidence has been stated that the school action of converting NTA into a high school is a directive from the mayor's office. CPS is merely a puppet in this proposal.

Why isn't CPS doing an inequity

1

analysis? Why is CPS ignoring all other alternatives and opting to choose the most harmful and drastic alternatives that will further hurt families who were pushed out of South Loop Elementary in 2005, had their previous schools closed in 2013, and now they found a home in and success in the NTA. school is 75 percent African American and low-income. A beautiful population of black families that has continually experienced educational oppression and (inaudible) at the hands of the mayor and CPS. Why did Janice Jackson purposely mislead the board falsely indicating that the Level 1 achieved by students in the gifted program when CPS' own information states otherwise? Let's think about that. Janice Jackson and disgraced

Janice Jackson and disgraced Claypool are so desperate to satisfy the mayoral directive that they were and are willing to make false statements in their roles as leaders of CPS.

In Janice Jackson's new role as interim CEO, she has continued to perpetuate

lies about NTA to further the Mayor's directive.

2.0

2.1

2.2

When does this stop? When has CPS ever made a decision to close a successful elementary school that is Level 1 or Level 1+? Only when it is a majority black and when they believe the families will not fight back.

When do they choose to violate their own rules and compromise every ethical standard in dealing with NTA families and students? They do it when the Mayor directs them to.

STUDENT COOPER: Hi. My name is a Kenny Cooper. I'm a first grader at NTA. I'm thankful for my teacher in my class. Thank you Mr. C, our principal. You guys are great. Don't close NTA.

UNIDENTIFIED SPEAKER: These kids are here because we are closing NTA. Kids that have admired the administration and things they do in the building, and giving them happiness to learn and be educated. To close a building for less fortunate families is not right. To take advantage of people that don't have -- what

else would they have? Taking their school and some of these people have nowhere to go.

I heard someone say they traveled 26 miles round trip and a high school you can't go eight miles to school. That's insane.

I live on the west side of Chicago by Garfield Park Conservatory and went to Chicago Academy High School. If I can make that travel, anyone else can make that travel.

To take over out youth is not right. The youth is going to protect us in the future. High school -- by the time you are in high school, you are already (inaudible).

Let's not take away from the young children.

MS. VAN OPSTAL: My name is Beth. Two quick things. First, for the people unfamiliar with NTA, it was built as a promise to Ickes Homes, and it is being taken away from us.

Second, the kids from Long Grove were kicked out of South Loop and now they want them back at NTA.

In the past year, Chief Education Officer Janice Jackson continues to purposely mislead members of the board and community.

1 This is very troubling.

23

24

The community, parents, teachers and students relied on CPS for equality.

When we have a CEO who is willing to give fabricated data of the school in order to comply with the Mayor's directive, we have no representation.

For the record, CEO Janice
Jackson lied about NTA on two occasions we know
of. First, at the July school board meeting,
Dr. Janice Jackson responded to a student
speaker in reference to the Level 1 status, she
stated you talk about the data and the
school -- the data in the school and the
students in the neighborhood school are not
seeing the same level of performance the
students in the gifted program are seeing.
That is not true.

NTA's SURP report from 2015 shows Janice Jackson fabricated a version of the data.

NTA reached Level 1 that year solely due to the neighborhood kids. Woo-woo. Why do you publicly (inaudible)?

It is disheartening to our kids.

2.0

2.1

2.2

23

24

Basically it was an attempt to sway future votes. Janice Jackson is willing to lie to parents about students to follow the Mayor's orders.

Second. Recently, on WGN Janice Jackson, who was CEO, stated on air in public, The kids in Long Grove and Miller Home (phonetic) are not going to selective enrollment schools that the gifted kids are attending. No one is graduating from the gifted program. The oldest participants are fifth grade.

Her statements have no basis.

This is CEO of public schools. For the record, these are deliberate attempts to mislead the board and community. Any and all information forwarded to the hearing officer from CPS must be deemed not trustworthy. Thank you.

MS. GOLDEN: Good afternoon. My name is Tatiana. I have four daughters. Two graduated from Ward and two currently in Healy. I am a member of the PAC at Healy.

I believe we need to -- this

shuffling of kids is a Band-Aid. I believe it's -- also definitely will create racial tensions in the City. It is not helping anything. It is just pushing things to the side.

We need to build and strive to build a new high school, maybe two new high schools, in place of shuttling these kids out of NTA, which is so wrong.

It is a Level 1+ school. I can only speak from my heart.

(Applause.)

It is a Level 1 school, and that is something everyone in the City tries to be. Why should we shut that down. Why should we displace parents, children, teachers, staff, everyone from the top down? It doesn't make any sense. We need more seats and we need a new school -- a new high school.

MS. WILLIAMS: Hello. My name is Brittany Williams. I'm just speaking on behalf of being a -- of living in a mixed-income community and being a mixed-income resident.

I just think that everyone

2.0

2.1

deserves, like, a fair opportunity with education. Like, everyone deserves, like, equal opportunity as far as education. And to kick these people out is not fair. It is not right. It is unjust. Just not okay.

2.0

2.2

I do believe everyone deserves an equal opportunity. Like, these are our future leaders. It is just not okay. I just came to say that from my heart. I didn't prepare anything. It is just not right.

MR. JOHNSON: Speakers 11 through 15, please line up. Speakers 11 through 15.

MR. SANDERS: Hi. Aaron Sanders. Proud parent of two NTA scholars, including the little guy that gave that great speech.

I'm here to talk about the discussion turning NTA into a high school and where we talked about the need to obtain feedback from the community. That's what CPS said they were doing. But the reality was the Mayor's office was directing CPS to convert NTA into a high school as far back as 2015.

His order followed -- being the mayor, followed what he made at an Easter egg

hunt sponsored by PDNA president, Tina
Feldstein, pictured right here, and the mayor
and the Easter Bunny.

5

6

23

24

e-mail from Alderman Dowell, the Mayor's office went to work on NTA, specifically in 2016.

Michael Negron, Mayor's Chief of Policy, began leading this discussion to close NTA. We got proof going as far back as 2016 that Claypool and Jackson, CEO Jackson, were in discussion with the Mayor's Office turning NTA into a high school. As for the Mayor's office, turning NTA into a high school is time sensitive. The Mayor's Chief of Policy in an e-mail to Janice Jackson discussed the goal of starting enrollment process for NTA's first high school class in 2018.

So the whole idea this was all developed with community involvement is a complete joke. A bunch of bunk.

This was obviously before any notification of scheduled community meetings on the issue.

In essence, CPS has never looked

at any other viable option on the high school.

2.1

Dr. Jackson has confirmed in at least two meetings on the record that she never looked at any other option for a high school in the South Loop other than NTA.

This changing NTA to a high school is a school action. That must meet specific criteria with true equitable analysis that CPS has avoided at all costs.

The mayor is not CPS. The Mayor is attempting to turn NTA into a high school for political gain.

I will tell you one thing. In addition to this just terrible story here, there are alternatives. QUE, Chicago United for Equity, did a racial equity analysis. Just let me finish on this. One point. I understand. But the last thing I want to mention to you, in that racial equity analysis, we had plenty of options. One of those options was let's sell old South Loop. Let's sell the annex. By my own math, and I'm not an expert on this, and I know math is hard, but the truth of the matter is, we would be able to pull

together at least \$30 to \$50 million to be able to build that new high school. Let's do that.

2.2

STUDENT MARQUEZ: Hello. I'm Marquez, and I'm in sixth grade. And I have been attending NTA since I was third grade. Even though I haven't been there most of my life, they have been like a second family. And I clicked with everyone.

I want to tell you, this is an act of prejudice against our school, and you should not close our school down because we have just gained the status of a 1+ school. So just because we have done that, you all -- you guys should not do this to us, because we have been showing that we can do the hard work for all of ourselves, and we shouldn't be acted against because of guys -- you want -- and our race.

Just like our teachers have been saying, if we don't get it, just shut us down. If you want to change our school, just shut it down, because we won't be the same school if you shut us down. Thank you very much.

UNIDENTIFIED SPEAKER: Good evening. I'm a

community member. I've lived in this area, a little bit south of here. I guess I'm officially in Bronzeville. And I lived here since 1999. And I want to applaud parents, the students on both sides who care this much about education.

Wouldn't the Chicago Public Schools all be in a different position if we had more parents who cared and more teachers who were there for more than a paycheck.

I went to Chicago Teachers

College. I passed the National Teachers

Association test. I was certified by the

Chicago board, interviewed by them. I taught
in a number of Chicago Public Schools, and -
beginning as a substitute teacher, who went
around to different schools. So I'm glad you
guys -- I got out of teaching because I

realized that wasn't my calling. The only one
who should be there in a classroom is someone
who feels it's their calling. However, we know
that some people are turning this into
something it is not.

I have been called a racist.

wouldn't live at 29th and Michigan if I were.

I think we got to tone it down,
listen to each other, respect each other.

Don't threaten people with photographs on a placard saying it is the hunger games. I had

placard saying it is the hunger games. I had someone who had to tell me what the hunger games were.

Most of the good parents in this room are not promoting violence, and that's what that means.

MS. CROSBY: Good evening. My name is Patricia. Thank you.

I'm a parent of six NTA students, four already graduated. We have two left.

(Applause.)

MS. CROSBY: Thank you.

But I wanted to just mention I'm part of -- I wasn't here for the last meeting.
But I'm part of one of the Ickes. I used to live in Ickes -- where NTA is where I used to live at. And I remember CPS telling us that the same thing that Chip said earlier, was that the Ickes kids would be able to go to NTA, enroll into NTA no matter where you live, which

unfortunately they reneged on, because I know that when I was able to get Section 8, and I moved out of the area, it was really hard for me to get my now 21-year-old into NTA. So I had to -- I had to use my mother's address, who lives in the (inaudible) in order for him to go to the school.

Now, it start being a little lax down the road, like some year down the road where I was able to put my other children into the school -- into the school, because I'm a foster parent.

But I just don't believe CPS when they say that the NTA students, no matter where you live at, will be able to go to that NTA high school. I don't believe it, because they already lied before.

MR. JOHNSON: Speakers 16 through 20, please line up. Speakers 16 through 20.

MR. WU: My name is David Wu, and I am a father of three children that have graduated or attended CPS schools. Long-time Chinatown resident.

I've had the chance to talk

24

As a result, our students are dispersed into nearly 50 schools, and these schools are not able to address the needs of our LAP students.

But the high school is not for Chinatown. I said that CPS planned -- CPS' plan creates one of the most diverse neighborhood high schools in Chicago. While we won't know exact demographics of students involved, CPS has provided information that the current CPS high school students within that attendance and preference boundaries are 27 percent Asian, 21 percent African American, 19 percent Hispanic, 10 percent white and 15 percent other.

I wanted to fact check my statement. I looked up demographics of every CPS neighborhood high school to see how other schools (inaudible) of their students, four of these racial ethic groups. Out of 46 high schools, only four, Amundsen, Lincoln Park, and

Senn, all on the north side, 10 percent of the student body were Asians, 10 percent African American, 10 percent Hispanic and 10 percent white. Only one, Schurz, also on the north side, had at least three racial ethnic groups, with at least 10 percent.

2.1

40 percent of the neighborhood high schools have only one racial ethnic group with at least 10 percent.

41 percent of the high schools have two racial groups at least 10 percent.

for CPS capital funds to be used for a new high school for Armour Square and Bridgeport.

Unfortunately, those funds which come around every decade or so were allocated (inaudible), but the need for a high school eludes us.

Over a year ago, Chinatown pushed

I support CPS' plan to create a unique and diverse high school for Armour Square, Bridgeport, Bronzeville, South Loop.

MS. GREER: My name is Elizabeth Greer. I am chair with the school council at NTA. This question has been asked before, but for the record, I do demand an answer. What is the

1 request for this proposal for this school action? CPS needs to let the community know 3 who submitted this proposal and when did they submit it. This is in the guidelines (inaudible). We demand action. 5 (Inaudible). I will be looking 6 7 for that answer, because I want to know if 8 possibly the request for this proposal for the school actually came from this letter that Pat 10 Dowell wrote in April of 2015. It is a letter to Mayor Rahm Emanuel on official letterhead. 11 12 And at the end of the letter, she writes, I ask 13 you to join me in support of this effort to 14 resolve the school overcrowding issue in the 15 South Loop by merging South Loop Elementary 16 School with National Teachers Academy and 17 converting NTA to become a neighborhood high 18 school. 19 That sounds very familiar, 2.0 doesn't it? It was CC'd. CC was Dr. Barbara Byrd-Bennett, CEO of Chicago Public Schools at 21 2.2 that time. 23 Nine months later, our Principal,

Isaac Castelaz, sent an e-mail to Alderman

24

1 Dowell wondering about this rumor that it will

- 2 be turned into a high school. I'm having
- 3 conversations with CPS, Mayor's Office and Ms.
- 4 | Shelton, the principal of South Loop
- 5 | Elementary, about possible expansion options
- 6 that does not involve the NTA facility. And he
- 7 | says, Thanks. That's good to know, because I
- 8 | heard this plan to turn NTA into a high school.
- 9 To my knowledge, no such plans is in the works.
- 10 But I'm not sure if organizations or
- constituents within the ward may be pushing for
- 12 this. And Pat Dowell said five minutes later,
- 13 I've heard of this. It is not a real plan at
- 14 this time.
- This is irrefutable factual
- evidence that our principal has been lied to by
- an elected official Pat Dowell, and the NTA has
- 18 been left out of the conversation about our
- 19 school for years. Thank you.
- 20 CATHERINE: Good evening, everyone. My
- 21 | name is Catherine, and I am a proud parent of a
- three-and-a-half-year-old. We live right
- 23 across the street from the new South Loop
- 24 | Elementary School that's going up.

I wanted to start off with a quote from Martin Luther King. Of course my phone messed up. A wonderful woman I just met this week posted this on her Facebook page.

Many white Americans of goodwill have never connected bigotry with economic exploitation.

They have deplored prejudice but tolerated or ignored economic injustice.

2.0

So I want to speak about Phillips High School. I recently joined the LSC there as a volunteer, basically because they don't have -- the parents there don't have the capacity to come and attend these meetings. The only meeting I was able to attend that we've had so far was just me, another community member, the principal and one of the guidance counselors.

Phillips Academy has about half of its seats open. I decided that as a parent in the South Loop, I would like to invest in a high school, to give my son a viable option for high school in case or in the event he does not place into one of the selected enrollment schools or selective enrollment school is not

suited for his learning style.

23

24

I started going and volunteering at the academic cafes there. The students there are all super wonderful. There are some challenges. I think there's inappropriate uses of technology there that I was a little concerned about. Not in -- it's about teaching math on the computer for students that don't have access to a computer or Internet at home. I don't know if that's a great choice.

I would like to get more involved and find out the reasoning.

They don't have a librarian there, which I think is really sad. So if CPS wants to talk about all the investing they've done in Phillips High School, why don't we have a librarian there?

STUDENT CROSBY: My name is Clinton Crosby. I'm a 7th-8th grade student at NTA. All I'm going to say, like, you all trying to take away from some of our kids that need education. They all messed up the future for kids who don't have great futures. Intelligent people who do intelligent things. And, like, NTA,

they just not just teachers, they are our families, second mamas, second daddies, whatever you want them to be. They teach you in a way that's going -- they going to teach you in a way that's going to help you learn, but also help you love them and love yourself, love education.

And all I'm trying to say, you all trying to take away and give, but all you're doing is taking away. And you all think that it's going to have some value to what you all done, but it really don't. Just one thing is everything. That's all I have to say.

DEBBIE: Hi. My name is Debbie. I was born and raised in the near south area. 20 years ago, this area was very different. Overt racism was very strong in Bridgeport. While I imagine it being -- well, I can imagine what it was four years ago. I'm sure many in the room can attest we are moving towards progress. For families in the Chinatown area, including Armour Square and Bridgeport, and the majority of Asians are not the model (inaudible). They do not come from high-income learners or

parents with high-educational attainment. Many parents are recent immigrants who don't speak English or work low-skilled jobs to provide for their families. So families after families strive for upper mobility and look to education as a means to get there.

For a high school to serve a very distinct area of Chicago, it must incorporate a very diverse student body that reflects residents in terms of race and socioeconomic class.

Currently, 93 percent of Haines, 33 percent of Ward, 87 percent of Healy are low-income and more in the boundary. While this is an imperfect proposal, it provides opportunities from seven schools where students are predominantly low-income, and it also serves the purpose of providing improved educational outcome at the high school level at a location close by. Unless another viable option is on the table, this proposal could hurt the greater Chinatown area more than it ever has.

Although I do not have children

of my own, I hope that they will be able to be exposed to different types of people at an early age and have a continued experience into their adulthood. Thank you.

MR. MOSKOWITZ: Good evening. My name is (inaudible) Moskowitz. I am here as a proud parent of a first grader at NTA. I'm also a CPS employee, but I am here to speak as a parent. I want to share my particular perspective, which is that, in my view, the status of NTA as a 1+ school or the debate about whether the gifted RGC scores are what attributes to their -- its rating misses the point; and therefore, I would not like to make the argument NTA should not be closed because it's a 1+ it school. I want to make the argument it should not be closed because what it represents to the students and to the parents, what it means as a community that previous students have said what it is to them. And that a school, its greatness, what it can do for students is determined by relationships that are established between the different members of the community, between the staff

members, between the administration, between the teachers, between the J.P. who -- of anybody across the entire City of Chicago is the only one who knows how to pronounce my daughter's nickname right. Even people in our family. And I have to explain to my daughter when she asks me, I don't understand, it's not fair. Why do I have to give up my school? And I don't have a good answer for her. The one answer that I would like to give her, that I think about giving her, is that the truth is if she were going to a school which was not predominantly African American, which was not predominantly low-income, she would not have to, because they would have political will and clout to stand up to it. And it pains me to say that.

Now I don't have a good answer to give her as a CPS employee or as a parent to tell her why it is she has to give up her school and why it should be fair that she has to give up her school so other people can have it.

I want to leave my testimony on

Page 47 the record on what it means to me as a parent 1 and to her as a student, as a child of a 3 community that's been created for her. So thank you. 5 MR. JOHNSON: Speakers 21 through 25, 6 please line up. 21 through 25. MS. EWING: Good evening, everyone. My name is Eve Ewing. I am not in any way affiliated with NTA. I'm here because I'm a 10 community member and to provide my professional 11 opinion. So when I say my professional 12 opinion, my opinion is someone who attended CPS 13 my entire life, who became a CPS teacher, who 14 got an undergraduate degree at the University 15 of Chicago. I have two master's degrees, one in teaching and one in education, policy and 16 17 management. And I have doctorate from Harvard 18 University. I know a thing or two.

The people in this room -- I'd like to address people in the room who are not affiliated with NTA and who look on people being disruptive and rowdy. I heard Mr. Johnson's admonition to be respectful.

19

2.0

2.1

22

23

24

Yesterday was MLK, and we do not

celebrate Dr. King being respectful. We do not celebrate Dr. King listening quietly, but we are asking that of our children.

2.0

NTA parents have been respectful. They have respectfully engaged with the aldermen. They have respectfully engaged with City Council members, with members of the school board, and it didn't work. So they are not being respectful anymore.

When you see them in here being loud and you shake your heads, keep in mind there is a reason for that. They tried to follow the rules. You know who else followed the rules? The 12,000 children who were displaced in the last school closures. They followed the rules, and 80 percent of those children were black.

So if you want to talk about what racism is and isn't, I refer to (inaudible), because there is a sick understanding of what racism is there, if you mean living in a black neighborhood.

This is the same song, different day. And, Mr. Johnson, I hear you in saying we

Page 49 1 need to be respectful because people have decisions they need to make. None of the 3 people who make decisions are in this room. None of them are here. We have no 5 accountability. We have no elected officials 6 to speak for us. What we see is CPS employees 7 trying to do the right thing who are out here, face it, angry community members. 9 This is one of the most diverse 10 groups I've been in in my entire life growing 11 up in Chicago, and it's diverse because they're 12 pitting folks against each other. 13 These are false choices. 14 Chinatown children deserve a good school. 15 Bronzeville children deserve a good school. 16 (Inaudible) and wrap up. I 17 adore my neighbors. Tomorrow (inaudible). 18 MR. JOHNSON: Thank you. MS. EWING: By keeping in mind the lives of 19 2.0 other children that are not (inaudible). Thank 21 you. 2.2 MR. JOHNSON: Next speaker. 23 STUDENT WILLIAMS: My name is Demar

Williams. And when -- I think that my brother

23

24

Page 50

or my friends and everybody who spoke before me, because when you take away -- when you take away a school, you take away a place, you are not just taking, like, the education, you are taking away a family, like, everybody, like, where they grew up at, what they doing. And everybody love NTA. And everybody love the children. They support each other and they Everybody who -- like your religion, learn. your skin color, what you like, what you do. And everybody at staff, Ms. Audrey, Mr. J.P., everybody, the principal, assistant principal, everybody who showed up today, they had -- they here to stop what you doing, because when you take away our school, you not only taking away what people think, you taking away how, like, they live and how they think about other people.

And like the lady before me said, nobody here to speak for us. But, to be honest, you all trying -- all I want to say is that when all of us -- when all of us -- like, we all been respectful. We been waiting while everybody else was talking. When you all

telling us be quiet, be respectful. When we been respectful, our voice and we being quiet, explain how we feel and how we think or how -- how we feel about this, and when we -- MR. JOHNSON: Finish your point.

STUDENT WILLIAMS: And when -- all I want to say, you taking -- not only taking away education, you're taking away people lives, people family, and little kids that just started school, they won't have a chance to, like, see how other people -- they don't get a chance to see about different religions, different, like, diversity.

MR. JOHNSON: Thank you.

MR. HARRIS: Hello. My name is Corey
Harris. Proud parent of students at NTA. Up
until recently and to this CPS closure, I have
realized what racism is. And just in my view,
I feel like racism is prejudice alongside of
power. And with the CPS with this power and
this president has taken this school -- this
school has become a pillar of our community,
where kids can look forward to going to school.
They look forward to having a better education.

2.0

Page 52

And we have other kids, too, like the kids from Chinatown, seem like they going through the same thing that we going through, but instead of allowing us to go to school together -- in which you have other parents, other Caucasian families that took a chance and enrolled their kids into a predominantly black school, and felt -- you know, realize that it was prosperous for them and their children. And they got a chance to see that we can pull together.

Taking our schools from us is -- you have, like, other kids from Englewood, their school's closing, and they are able to go to Phillips. And we give the kids from Chinatown a chance to go to Phillips, maybe they can enhance what we already have at Phillips, to better all our schools. You know what I'm saying?

You have a lot of parents that wasn't able to get good educations, so they had to work two jobs. That's why we don't have a lot of parents here now, because we have such poor schools in our community, they had to take

on two jobs just to make ends meet.

2.0

2.2

And if we have schools like NTA that allow us to get good educations, we can bring some back to our community besides the bad that you see on TV.

MR. JOHNSON: Thank you. Speakers 27 through 32. Speakers 27 through 32.

MR. MARU: Hello. My name is Matsuo Maru. I have a child at South Loop as well as NTA. CPS pledges their commitment to provide every child from every community with a high-quality education, so who's being served by this decision?

The New York Times published that CPS students appeared to be learning faster than students across the country, according to a Stanford University study. Although (inaudible) attributed, the pattern in Chicago shows that black, white achievement gaps are not narrowing.

In fact, in another New York
Times articles based on research by the same
Stanford University team, highlighted a
three-year academic gap between white and black

student at CPS. The racial achievement gap is pervasive. The CPS shared academic data segregated by school program. This level of data is typically not made public.

When you examine a neighborhood program, and there is a significant racial achievement gap at South Loop Elementary, 8 out of 10 students that do not meet grade-level proficiency are black, 8 out of 10.

Of the 240 neighborhood students that are black, 60 not meeting grade-level proficiency. 60. And while there are 60 black students not meeting grade-level proficiency, there are only 6, 6 white students not meeting grade-level proficiency. This is unacceptable.

The steering committee data also shows increases of students' progress at South Loop. 7 out of 10 students that do not meet their expected annual growth (inaudible), 7 out of 10. Why a disproportionate number of black students not achieving at grade level? And more importantly, not adequately growing. So who's being served by this decision?

2.1

Eliminating NTA, a school where

2.2

Page 55

blacks kids are growing (inaudible). 75
percent of the schools across the country do
not serve white students. Transitioning black
NTA students to South Loop Elementary, a school
where disproportionally black students are not
meeting expected growth, does not serve black
students.

Martin Luther King said,

"Capitalism does not permit an even flow of
economic resources. With this system, a small
privileged few are rich beyond conscience, and
almost all others are doomed to be poor at some
level. That's the way the system works. And
since we know that the system will not change
the rules, we are going to have to change the
system." Thank you.

MR. CORLEY: Hello. My name is Jeff
Corley. Before I speak, I just want to
recognize Patrick David who organized -- helped
organize this tonight. He also runs a tutoring
program that impacts a lot of the kids here.
So if you really want to get involved, please
see Patrick David about the tutoring program he
has every week.

I've been a South Loop resident for 23 years. I have watched the neighborhood grow. I never thought it would take this long to address a lot of the CPS overcrowding -- school overcrowding structure needs, which was really universal.

2.0

2.1

2.2

I am in favor of trying to combine the student population to find a solution for both the overcrowding, combining, improving the education experience for all, and as well as a high school option.

My family's been personally impacted by this. After having kids, the CPS had changed the neighborhood boundary. Not having a pre-K program, NTA at that time, I had to search for alternative solutions for my family. And I understand where that comes in. But we're losing too many diverse families when it comes time to select a neighborhood school or kids ending up taking CPS slots over in the West Loop. That's not fair as well.

But at the end of the day, the numbers are such that the South Loop is growing and doubled in population from 2000-2010, and

then from 2010-2012 another ten percent.

Now you got 10,000 developments, that doesn't include a plan for transportation, it doesn't include Michael Reese. It's happening.

We're going to be right back here in a couple of years regardless of what side you are on. This is going to have to be addressed. There will have to be hard decisions made.

And at this time, CPS estimates that there's 4400 kids of school age between Printers Row and I-55. So at some point we have to consider these numbers. And at the end of the day, a new structure needs to be addressed for everyone. Thank you.

MR. JACOBY: It's not very comfortable being called a racist.

UNIDENTIFIED SPEAKER: You're a racist.

MR. JACOBY: Yeah. And having my daughter of Chinese birth see that her father doesn't like brown people, or trying to explain to my college-age daughter, who was sent to South Loop that was 98 percent black, their father

Page 58 1 doesn't want her going to school with black people. 3 I think you need to tone down the 4 racism --5 (Audience shouting.) 6 MR. JACOBY: -- PDNA in this area, we've 7 had community meetings in this church about the need for a high school starting in 2011. So there were a lot of efforts --10 MR. JOHNSON: Excuse me. 11 MR. JACOBY: That's great to teach your kids. 12 13 (Audience shouting.) 14 MR. JACOBY: This is a neighborhood high 15 school, a local community asset. NTA was built 16 mainly with their (inaudible) funds. 17 If this community deems it appropriate to use a community asset for a 18 19 community high school, I think that that is an 2.0 appropriate action to take. 2.1 MR. JOHNSON: Excuse me. 2.2 MR. JACOBY: Forget it. They don't want to 23 hear it. 24 MR. JOHNSON: Next speaker.

UNIDENTIFIED SPEAKER: Good evening. You know, I'm a parent of a first grader, and I purposely picked NTA for its racial makeup.

2.1

2.2

I was not afraid to walk in the door. And I traveled down Lake Shore Drive to do it every day. My first grader has never missed a day of school. That's how much he loves NTA.

But I digress. Let's talk about Dr. Jackson, CEO. On 2/5/2017, a meeting was held with her. I was present, so was LAC president.

At that meeting, on the record, I asked Dr. Jackson whether or not she was even aware of the previous boundary change in 2005 that occurred in the area of South Loop. And John Jacoby, who just left here, he should know about that, because he was quoting an article talking about how South Loop Elementary had improved after so many of the kids had left that was low-income. So he should know.

But more importantly, Dr. Jackson did not realize at that time that a boundary change kicking so many kids out of South Loop

Elementary, black and low-income, and pushed to NTA, she was unaware of that.

24

She made declarations that this new proposal is to right a wrong. But she didn't know about this wrong until this year -- well, last year, June 2017, yet she had conversation with the mayor as -- going back in 2015, after she took over for Barbara Byrd-Bennett.

So this proposal, which she is saying in the media is to right this wrong that occurred in 2005, she is completely unaware of it.

So for the hearing officer, for CPS and for Chip, you are clearly willing to move these families back and forth and prejudice the same families that were prejudiced in 2005. That is not right.

MR. JOHNSON: Next speaker.

STUDENT CALEB GORSON: Good afternoon. My name is Caleb Gorson. I'm a fifth grader at National Teachers Academy.

I'm here to represent my teachers at my school. My homeroom is Ms. Albritton.

My second teacher is Ms. West. The principal teacher and the assistant principal teacher are doing as much as they can to help our school.

I think what you are saying,
Chip, that you want us to -- that you want us
to stop talking so you can do the presentation,
but also one thing that NTA wants you to know
is we want you to hear our voice in what we are
doing. We're trying to help our school to do
what we are doing, because my mom lived here
since she was born. After she had to move, we
had to go until my dad helped us move. I have
to walk four blocks to get to -- my house to
get to the school.

If you move us to wherever you're going to move us, we are going to have to walk more blocks than we have to walk.

STUDENT DEVONTE McNULTY: Good evening. My name is Devonte. I'm in 4th grade. So I have an old -- I have my grandfather who lives in an apartment building. So the reason why NTA is being turned into a high school because -- we have so many activities and stuff like that. And so what you're doing is learning about

- 1 | the -- 1990 -- so -- so this is not right.
- This is not right because it's dangerous
- outside and it's cold. And minus ten degrees.
- You got to walk four blocks from our Long Grove to South Loop.
- 6 MR. JOHNSON: Thank you.
- 7 MR. SHIU: My name is Simon Shiu.
- 8 (Inaudible.) Okay? And I notice my kids not
- 9 going to -- they go to neighbor high school.
- 10 But my neighbor is -- my neighbor have black,
- 11 white. Okay? Spanish, Italian. Different
- 12 country. Okay? But the thing seems like for
- everybody know, if you look at inside a whole
- bunch of elementary school, doesn't have a high
- school. Okay? And then probably we need a
- 16 high school.
- NTA is a wonderful Band-Aid, but
- we need two high schools, at least two, in
- 19 order to serve.
- Calling for information right
- 21 | now, build a new high school with only 1200
- 22 students, divide by four, only 300 student able
- to attend that neighborhood high school. Okay?
- When I come over here, you are

Page 63 right, I'm thinking about our -- one of our two 1 schools. If I can save one half hour to study, 3 then I don't have to let people let me off. 4 Okay? 5 And then the other thing, one 6 thing I come over here to let you know -- to 7 say I'm Chinese, but the thing I work for, come here, I taking the bus from 109th Street on the -- for ten year. So don't tell me about 10 I'm racist. 11 The other thing we need the high 12 school. Period. 13 Thank you for those two kids 14 speaking. And next time at the meeting, let the people try to finish the sentence and then 15 16 can say what's wrong and come to speak. Thank 17 you. 18 I am David Manelope (phonetic). DAVID: 19 I'm from Bridgeport. I'm a labor activist. 2.0 (inaudible) student debt at the college level. I'm a member of the Bridgeport Lions. 2.1 2.2 And I think it's worth stepping back and thinking about the big picture here 23

with an unelected school board.

24

1

2

3

Public services like public

schools are our right, and they deserve to be distributed with a fairness, not favoritism.

4

12

13

14

18

21

23

When you do not have a check and

5 balance of a vote over a school board, you're

6 going to get outcomes with favoritism. And you

7 are not going to have that bonding where you're

going to get access, whether founded or not, of

favoritism. And you are left with situations

10 which are profoundly undemocratic, where

there's feedback, but it's like you're talking 11

at a kid, and you are hoping that you have a

good kid in office to bless you and pat your

head. That's not how democracy should work.

15 We're living in a democracy.

16 I think you get these situations

17 where they just talk at you. And look around

here, and there are people who have different

19 perspectives, but who care very, very much

20 about NTA, about the need for a high school

that provides uplift. And all of us as

22 community members deserve a vote.

These school officials can and do

wreak havoc in our kids' lives. And we deserve 24

to be able to hold them accountable at the highest level, no matter where we are on this particular issue.

23

24

MS. PINAGLIA: My name is Joey. I am a resident of Bridgeport. I actually spoke at last week's meeting in favor of the high school, but opposed to the current boundaries because they leave out of half of Bridgeport and all of Canaryville.

It occurred to me last week as I sat through the whole meeting and didn't realize what I was faced up against until I came across Facebook. I rewatched the meeting. Now I am here today because I thought, well, what can I say that's different? And it occurred to me, the young lady who spoke from Harvard with the bow on her neck. Yes. Ιt occurred to me that you actually kind of started the point that I thought of. We're all sitting in here fighting for our kids. us think we're wrong, some think we're right. But the fact of the matter is, nobody is addressing the elephant in the room, which is how many millions of dollars that CPS is taking

from CPS budgets and giving to charter schools.

And it occurred to me about this

3 | last week after -- I'm fighting for a high

school for my kids. There are buildings

around. They're not quality because they're

6 gang-infested, because they're low-income,

because, you know, there's no money being

invested in them. But we can send money to

privately run schools that are not even held to

10 the same standards of CPS schools.

1

2.2

23

24

I want to make sure everybody understands the effects of displacement. I want you to understand the negative effects of displacement of students. And academic achievements starts one year before the move even happens, as soon as the announcement occurs, and continues up to three years after the displacement occurs.

And I want you to take into consideration that this board has had the most school closures. And when you had school closures in 2013, most of them happened right here in this ward. They tried it in Pershing and Bronzeville before when they combined schools. You know what happened? The ratings of the schools dropped. This is not a good option.

Also, do you know that NTA families -- many of them have been displaced two to three times already because of previous closures.

Do you know many of the NTA families have also been kicked out of South

Loop Elementary before?

2.1

So I ask you to go back to those statistics where it starts one year before, lasts up to three years after, and tell me who has the right to continue to destabilize education of these children who are, perhaps, the most vulnerable of us. Do you think that is your right? If you do, let me state clearly, it is not your right.

If you want to teach your children about diversity, what I want to say, start with telling them treat your neighbors with dignity. You don't take something because you want or need it. And start showing your children what it means to work or build at a high-performing high school, instead of taking it as if it belongs to you.

And you, Mr. Jacoby, I don't know what you will say to your daughter and how you want to explain this process.

You're on record (inaudible) south side, June 21, 2017, admitting there are 1500 available high school seats in the area, but you said that's a valid argument in terms

of the fact that these schools are under-utilized. The answer to it is, None of our people will send our kids there. Face it. It is your quote.

2.2

MS. LEE: My name is Nicole Lee. I'm a life-long resident of Chinatown. Product of the Chicago Public School system. These two ladies here, young women, are former classmates of mine. They are parents at NTA, and I stand with them at NTA today as an Asian parent.

I want to tell you why I am opposed to the current proposal, because there are no winners. There are only losers in this current plan.

There is a need for a high school, and there has been for a long time. I don't want the kids in the community where I live, I don't want the kids -- any of the kids that came up here to speak to have to travel 26 miles. They shouldn't need to do that with the public education system in our society today.

I was part of a focus group on Saturday that CPS commissioned, and the Chinatown and Bridgeport neighborhoods were the

last ones on this list to have the focus group.

2.0

We received the invitation on Wednesday for a Saturday afternoon. I was one of seven people able to make it. And the facilitator started the conversation wanting us to be rooted in this quote that he gave, which is, All the children are well, which is on the side of a table, which means life is good. And it means that the daily struggles of existence, even among poor people, include the proper care of the young and the defenseless. The implication meaning that all of the children are our responsibility, yours, mine, everybody

So what are we going to do together to make sure that we have opportunities for our children and every child? Because our kids are your kids, your kids are mine.

in this room and everybody around.

MS. BUSH: My name is Sarah Bush. I'm a parent of two of kids at NTA. This is the fourth public hearing I've been to. I've been to CPS board meetings. I'm a working parent. I don't have time. I keep coming because this

is really important.

2.0

2.1

2.2

We've heard through this process opposition for the plan from the NTA community. We've told you what we lost at NTA, our culture, integrity and awareness, restorative justice program and our fabulous student teachers and staff who created a learning environment that challenges and engages all our children.

You heard about how students and teachers working together to help NTA in reading and math (inaudible.)

You also heard from residents of the South Loop, Chinatown and Bridgeport community who all spoke about the need for a neighborhood high school option. This proposed plan does nothing. It ignores the concerns of NTA communities. It tears our community apart, splitting our student body across four different buildings. It disadvantages those who stay at NTA as the elementary age population shrinks. How will NTA be able to continue to offer a reach program (inaudible) success at school? How will it retain and

Page 72 attract their teachers? Most importantly, NTA 1 will eventually go away. Future generations 3 will lose access to this gem, which has so ably served low-income, African American majority 5 population. 6 As my friend here points out, 7 this proposal doesn't meet the needs of the near south community. Even when it opens, it won't be able to serve the whole community. 10 It's built as an elementary school. 11 There is another way. Last week 12 I participated in the QUE racial equity 13 This tool used across the country analysis. 14 begins with the commitment to racial equity. 15 We have representatives from many different 16 viewpoints, and the discussion was respectful 17 and collaborative, unlike my experience with I felt heard, and the outcome was not 18 CPS. 19 predetermined.

This is the way policies should be made in Chicago, not driven by closed-door meetings where few voices of privilege dominate. Thank you.

2.0

2.1

22

23

24

MS. WATKINS: I'm Latasha Watkins. I have

a child at NTA. And I want to thank you,
Nicole, first all for coming up and taking a
stand and saying that she agrees that NTA
should not be compromised in terms of our
education for the students there to gain a high
school.

2.1

What I want you to realize, and I want to make sure is on record today, is that the politicians continue to pit us against each other, and they give us false choices.

So Pat Dowell, on Friday, June 2nd, 2017, Dr. Jackson had e-mailed Alderman Dowell, in which Dowell states, "I see that the NTA parent groups are trying to make a segregation argument. I think we should have an answer for that should it rear its ugly head at the meeting. From my perspective (inaudible) increases diversity of the South Loop Elementary School. If you have time before the meeting, let's discuss."

So what's interesting is that
Dowell, as alderman, that's passed out as part
of the community and as a stakeholder, believes
that closing NTA will increase diversity at the

South Loop Elementary School, and there is no discussion of this by the alderman on how this proposal will negatively impact NTA. There is no data presented that says that any of these outcomes will be positive for any of the children or communities involved.

2.1

2.2

23

24

And I (inaudible) Alderman Dowell quoted in the media saying segregation is not her job, and she was not going to take it on.

It is very interesting this is now an argument.

Again, I would like for us, the NTA parents that have reached out on several occasions, this is a false choice. NTA does not have to be compromised for us to have a high school that serves each community that is deserving of a high school. And we do not have to accept that.

So continue to fight against it. And for those of you that would like to join us, again we still welcome you, and you are welcome to come to NTA as well for elementary school. Thank you.

MR. DIAZ: Hello. My name is Eli. I

believe I don't have very much to add to the discussion. Everybody is pretty clear on what is being -- what is taking place.

2.1

2.2

The CPS officials do not reflect the society's will. They do not reflect the constituents. They reflect what downtown wants.

And I can truly understand that they have to do what's needed to provide sustenance to their family and their well-being.

So I ask myself what -- if they are actually listening, what alternatives have they come up with? Have you made any alternatives for NTA being a high school? Or is it the one and only plan that you guys had? And rather than listen to any genuine alternatives, it's just basically again meeting the state mandate that is required of you before you move on to the next option, which is basically closing down.

Is there, I ask you, not rhetorically, I ask is there another plan that was neck in neck with closing down NTA that was

Page 76 optioned out? Was there anything else? 1 MR. JOHNSON: I can't answer. I'm not 3 answering. 4 MR. DIAZ: So he is just a hatchet man. Ι understand. 5 6 MR. JOHNSON: Thank you for your comments. 7 MR. DIAZ: Thank you very much. And 8 really, I would say vote what's good for the 9 society here. Everybody here has a genuine 10 need, but we don't need to be divided and 11 conquered for somebody else's will and desire. We need something that is genuine. 12 13 I know your hands are tied. You like your salaries. And you don't want to be 14 15 pounding the pavement, especially if you don't 16 have the goodwill of downtown. 17 MR. JOHNSON: Thank you. 18 MR. ADEMOLA: Thank you. Good evening. 19 name is Kofi Ademola. I'm member of the Black Lives Matter Chicago. I just did a speech 2.0 21 yesterday at DuSable Museum connected to the 22 civil rights movement. 23 One thing I pointed out, when Dr.

King first came to Chicago to fight against the

24

Page 77 (inaudible). For those that don't know, at the 1 time of Daley and the superintendent 3 (inaudible) were forcing segregation either though white -- predominant white schools. 5 They had seats available. They wouldn't allow 6 black students to attend there. They built this to pop our children into, right. 8 The reason why I bring that up, 9 because that happens today. Where this is not just racial inequality, this is about profit of 10 11 the people. I heard time again CPS has money 12 13 to build a high school for you all. 14 Right now, we're fighting for 15 diverse policing and that. The City has a \$1.4 16 billion budget for policing. That is 17 ridiculous. That money should be directed into 18 the community. 19 We should be opening up a high 2.0 school. We should be keeping NTA open. 2.1 So we can't allow them to be non -- and putting two communities together against 22 23 each other. 24 Diversity is not the truth when

we're fighting each other. This is more gentrification. This is (inaudible). They push black people out. We've seen this in Englewood with school closings. We've seen it back in 2010. Please let the two communities come together and fight for this right. Keep NTA open.

2.0

2.2

MR. JOHNSON: Speakers 38 through 42, please line up. Speakers 38 through 42.

MS. CLARK: Hi. Good evening. My name is Erica Clark. I'm with Parents for Teachers. I was at the last hearing, all the hearings over the summer. I've been to the hearings at Englewood. And when I left last week's hearing -- whenever I leave hearings or meetings with NTA, I always feel so -- I get in the car, and I'm hopeful and so energized because of the passion and the dedication that you all have to fighting for your school and your families and your children.

And then two seconds later, reality sinks in that we're standing there with people from CPS telling you -- telling us that we should be respectful.

24

Page 79

Well, how is attacking black families in this city, what we're seeing over and over again, like the last speaker just said, here at NTA, down in Englewood, in 2013 with all the school closings, how are those attacks respectful? You don't deserve respect. I'm sorry. I know you're doing your job. But CPS does not deserve respect. They are not treating the communities, the black communities, with respect, so what goes around, comes around. And someone asked earlier where is Janice Jackson? Where is Frank Clark? Where is Mayor Rahm Emanuel? Has anyone from NTA had a conversation ever with the mayor? No.

So, you know, Janice Jackson is on this PR tour now. She was at City Council last week. She's been going to meetings talking about she's going to turn the page, you know, they made some mistakes. You're darn right you made mistakes. This is a big mistake. And she needs to fix it.

So she's talking about wanting to rebuild trust and regain, you know, public credibility. Well, if she really wants to do that, she needs to stop this. She needs to drop this plan right now and put an end to these school closings and these attacks on black parents and black students.

MR. JOHNSON: Our next speaker.

MR. McGEE: Good evening, everyone. Му name is Larry McGee. I'm from the GAP Community Organization that is just south of here. If there is a chance the school is closing and turned into a high school, you need to go back to 1998. In 1998, the TIF was created under (inaudible) Hickock. All you all are arguing about a school didn't pay nickel It is in the Bronzeville TIF. for. Bronzeville TIF goes from 22nd Street to 39th Street. Predominantly a black neighborhood who paid for the school who couldn't go to the school. So if there was going to be a high school, all you are welcome to come to our school, because we pay for it.

And if you want to know, Freedom

2.1

Page 81

of Information Act that was done that showed all of the money to build that school came from black people. Most of you all don't know that, because you're going by Alderman Dowell, who is lovely. You're going by Alderman Tillman, who is lovely. Bob Fioretti who is lovely. But it was all in the 2nd Ward, and it was the Bronzeville TIF that has paid for the school.

And all we're asking is whatever you do with it, we want you to move the boundaries inside the TIF, so the people who paid for it, who are African American, can have access to what we paid for. Thank you.

MR. JOHNSON: Thank you. Next speaker, please.

BRENDA: Good evening, everybody. My name is Brenda (inaudible) from NTA. I'm a grandparent at NTA. And my grandkids are part of that first procedure that you all kicked us out of South Loop.

And I'll address it. They took the bus service first. They took the bus service. And I just heard you say something about a \$3 million plan that included bus

service. Let me say something. Don't pat us on the head. That's a pat on the head. took it from us in the beginning. Ain't going to give us back and pat us on the head. That's what I want to say about that, please. because we've been through this before. it's not fair to the children that you keep running us around like this.

24

You build this new South Loop school building, not for us, it is for the politics.

I ain't -- I don't think it's about color. It's about politics.

You all politicking with our children's lives. Then when they turn out all bad, you want to politic some more and say they all bad. What you want us to do? We want the Chinese. We want everybody, the high school, but not at the benefit of other children.

These kids, the foundation begins when they little. As they grow to teenagers, they disperse, because I can guarantee they ain't all wanting to go to NTA for high school.

In a few more years it is going to become a

2.1

Page 83

selective enrollment school. Who all going sit there, other kids, you know, lotteries all that. How many years that's going to last that you allow every kid from every neighborhood come here? That's not going to last, because you're going to take the money. The money is coming in the South Loop. It ain't about the skin color. It's about the money you try to get. I know. But don't pat us on the head with this \$3 million plan you just put in place. Find that \$3 million, put it somewhere else, and make sense about it. But don't pat us on the head with this \$3 million I just heard you say.

So far Barbara Byrd, where she at? She's locked up. Ain't she?

MR. JOHNSON: Speakers 43 through 47. Speakers 43 through 47 line up now.

MS. BROOKS: Good evening. My name is
Teneka Brooks, and I am the assistant principal
at NTA. And I've been silent. And I chose not
to say anything every single meeting, but I
could not sit still and not come and stand here
and speak on behalf of my school. My babies

1 stand here before you, my parents, our community members. What I will say to you is, 3 I challenge Bridgeport families, our Chinatown families, our elected officials sitting here, 5 our CPS officials sitting here, to come, come 6 to NTA. Since March, we've all sat at 7 meetings. We've talked about this. I have not seen anyone come and walk through our doors on any given day. If you walk into our 10 building -- and I know I'm going to go past my time. On any given day, if you walk into our 11 12 building, it may not be peaches and cream, you 13 might walk through the hallway and may see a 14 student that is upset, irate, irritated, but 15 what you will see along with that is at least four other individuals, and those individuals 16 17 can range from security guard, a teacher, a 18 fellow classmate that is trying to calm that 19 child down. And the same process that you will 20 see is that child possibly going to a classroom and talk about what is bothering him. 21 Talk 22 about how he could have made a different 23 choice.

On any given day, you may walk in

24

and see a group of first graders leading an entire seminar, preparing several different informational texts in a first-grade classroom.

You may walk into our building and you may see our middle-school students working with our primary students who are significantly below. You may walk into our building on any given day and see myself, our principal, putting small groups of students that we know is going to make a difference in our achievement (inaudible).

You may also see -- you have one other speaker. I ask you to please let me finish.

MR. JOHNSON: Thank you.

MS. COLLASO: My name is Joan Collaso. I'm a resident of Bronzeville/the GAP. And I just simply came here to echo my neighbor, that whatever good thing that you have, certainly should be shared with the young people who live in the GAP area. We have high schools there, public high schools, but we certainly need a

Military academy is good. We have Phillips. We have Dunbar. We need a high school that is diverse. That will include our children in that area. We need a grammar school that is diverse that will include our children. Our children can thrive. Our children will thrive. All they need is to be included. That's all I wanted to say.

MR. JOHNSON: Speakers 48 through 56. Any speakers with the numbers 48 through 56? You will be our final speakers. You may line up.

GRISELDA: Hi. My name is -- I'm too

short. My name is Griselda, and I am a woman 1 of faith, and I don't like any negativity, and I don't like all the racial tension that's been 3 going on and the talk. I have been advocating for a new school. We all -- all of our 5 6 children deserve a quality education beyond 7 eighth grade. And I am an involved parent at my school, which is James Ward. It's a diverse school. It is primarily made up of Asians that 10 are learning English. And being involved there I know two things. I know what it takes to 11 12 make a 1+ school, and I know the Asian 13 community. I know a 1+ school is not just a 14 bunch of kids getting good test scores. means that you have children that are willing 15 16 to learn. They are learning. Teachers that 17 love their job. A whole team comprised of 18 teachers, support staff, getting parents 19 together. It is a community, a thriving 20 community. And also in my school we have a 21 large Asian community, and we lack services to 22 teach our children. We constantly have 23 24 teachers flying to China to get materials they

need. We never received information from CPS in Chinese. So our teachers, our parents have to stay late to communicate with our parents in their native language.

So I am here to say that all of our children deserve a quality education. And the Asian community deserves resources it needs so that their children, too, have a fair chance of quality education. Thank you.

UNIDENTIFIED SPEAKER: Good evening. I'm the parent of Jordan Willis, second grader who attended the RGC program since kindergarten. Everybody knows Jordan.

During her educational journey,
Jordan has built solid, profound relationships
with classmates, educators, ancillary staff, as
well as with other parents. Not only do her
classmates attend school together, some of them
also take classes together at kid science labs,
attend birthday parties together and also plan
birthday parties together.

And even this past holiday, some of the students attended a Martin Luther King workshop together.

2.2

Page 89

We'll speak about how these bonds were solidified in the first place. They were solidified through countless hours of the parents, their Facebook groups, text streams, during assemblies, school trips, during fundraisers. This is how parents have built trustworthy bonds. And this process has -- the children trustworthy bonds, too. Not your average bonds, but powerful bonds, social bonds, which collectively have strengthened our school unit. Okay?

How many can call five parents in your child's classroom and ask them to pick up your child at school because you are stuck in traffic? How many of you can ask parents to post a copy of the homework because your child accidentally left her folder at school? How many of you see weekly videos posted by students and teachers that display academic rigor?

As a CPS educator, and an alum, I have seen firsthand what works. I'm in the trenches. You can't pull wool over my eyes when it comes to the educational process.

And when I (inaudible) to the academic and social, emotional development of children stability.

This proposal -- please, this proposal is not in the best interest of the children, it's in the best interest of the state developer, politicians and urban planners who don't care about our children.

I have more to say, but I'll close. Please just try to work with us.

Please just try. I'm an educator of over 20 years. I've seen what works, and this will work.

MR. JOHNSON: Thank you. Before our next speaker comes, we have about 14 minutes before we conclude this meeting. If you want to speak again, you may register outside and come back. We have room for maybe three to four speakers, though. Thank you. Speaker.

MS. MILLER: Hi. My name is Pearl Miller, and I am from NTA, but soon I won't say that, because if you close my school, I have to say that I am from South Loop.

Also, I can go to the high

2.0

2.1

- 1 school, but my friends in lower grades won't.
- Also, you take away part of my life if you take 3 away my school.
- Just because you think it is 5 right, doesn't mean it is right. People who 6 make friends, want to be -- I mean, be able to keep them and see them through.
 - MR. JOHNSON: Next speaker. Also, if you can line up this way, please.
- 10 MS. SHELTON: Hi. My name is Olivia 11 Shelton. I live in Long Grove. I'm a grandmother. I'm an old-school grandmother. 12
- 13 Anything goes wrong with my grandson, I'm on 14 it.
- What I like about NTA, they are 16 family. Anything go down, Ms. Brown, the office, the teacher, it doesn't matter, because 17 18 it happens in science, math, everybody is 19 involved. And that's what I like about NTA, 2.0 the whys. Why does my grandson want to be on
- time? Every single day. Why does my grandson 2.1
- 22 want to have perfect attendance? He never
- 23 wants to miss.

9

15

24 I'm older. I'm retired. I get

1 my grandson up every morning at 6:30 because he 2 moves a little slow. He has to take a shower. 3 He has to be ready. He has to get to school on There's no exceptions, because they want time. him to be at a high standard. He has to be 6 accountable. You have to be accountable. I worked with people hand in hand. If the teachers said it back in the day, it's true. You don't get to say, oh, no, 10 that's not -- uh-uh, we work together. 11 And Ms. Brown said you did it, 12 you did it. And that's -- you have to tell 13 that child right there. You have to respect, 14 you have to respect authority. You have to hold yourself up at a high standard. 15 16 can get a C, you can get a B. If you can get a 17 B, you can get an A. You know, do your best. 18 But I'm a grandmother. It's 19 rough. I get up and walk him every single day, because this child loves NTA. I watch 20 everybody. I watch the principal. I watch the 21 22 teachers. I'm a looker. J.P., he's awesome with the kids. And I appreciate all of you. 23 24 This is our family right here.

So, come on now, work with us. And whatever you do, pray. Thank you.

MR. JOHNSON: Next speaker.

MR. TOERNE: Hello. My name is Ted Toerne. I live in the University Village neighborhood. I drove from my job in Oak Lawn and will return there after the meeting because I think it's important for me to say something.

I attended the meeting last week hoping to run into my alderman to lobby with my neighborhood to be included into the new high school catchment area.

What I heard within the rhetoric were two important things. First, NTA clearly services its population exceedingly well, as leaders and teachers have created an environment, programming that serves and supports students wonderfully.

The school is successful by every method. Its students are inspired, thriving there. Not one person involved with the school wants to merge into the South Loop. Too many of the NTA students will get lost in the South Loop environment, which is not being designed

for their specific needs.

2.0

Merging the (inaudible) schools is good. Displacing the NTA students into South Loop School is wrong. The plan to convert NTA into a high school is terribly flawed. The facility was built as an elementary school and won't function as a school for older students.

Additionally, the numbers presented by CPS don't add up. They're based on inaccurate margins.

This high school will be overcrowded within years, and we'll be right back here again fighting CPS too soon. There are obviously better alternatives. For example, the Central City High School proposal and the empty Little Italy, Addams/Medill area adjacent to the (inaudible) athletic complex announced to be built there.

No one can look objectively at the NTA proposal and agree with it.

Unfortunately, it seems to be a fait accompli.

If this plan moves forward, it will be a shame on Chicago. Thanks for your

attention.

MS. BOSTON: Hello, everybody. Good evening. My name is Shantel Boston. And I'm a parent of three students of NTA. And I'm just coming to speak on behalf of -- my children couldn't be here today. One of my children, he had suggested to me, he said why is it that CPS doesn't try to build another school? His name is Javion. And he said, Why is it they don't take the time to try and build another school? Why take our school? He said, If they need help building another school, I'll help.

And it's sad that our children have to constantly fight to keep something that, like I said, is -- I feel is a great place. Because I grew up in the suburbs, and I tell my kids all the time that schools that I went to, if you had an issue, they were quick to send you to an alternative school. They won't give you as many chances as I have seen the staff at NTA give my child. And, yes, I do have a problem child. But I pray for him daily. And he is going to be great one day. Hopefully soon.

Page 96

But I work for the City, and I'm in a constant fight for just treatment on my job. And to hear the proposal that's here now, it's just like -- it just never ends. And this -- I always viewed Chicago as a great city from growing up in the suburbs. And we used to make a summer trip every summer just to come out here to view the sites and ride the train, and it's like just living here, it has -- it's not what I thought it to be.

And I just -- like the last lady said, all we can do is continue to pray and just have faith and just keep fighting. Thank you.

MR. McDERMOTT: Good evening. My name is John McDermott. And one of the key injustices that we as a City have to come to terms with is that the plan for transformation of public housing in Chicago was started in '99, so we're now 18 years into a ten-year plan. That plan has only resulted in less than half of the replacement of public housing units that were promised actually being built 18 years later. And I know this from personal experience. I

had a chance to work closely with the residents and former residents and neighbors of the Lathrop Homes on the north side. And in that case, the CHA initially promised that rehab would begin in 2001, and just is beginning this summer, this past fall.

2.0

2.1

So there was this immense period of limbo, practically a generation long, 17, 18 years.

That same thing has happened at the Ickes Homes.

I know from experience that
Lathrop Homes, as the population went down and
the local school was closed, it became very
difficult for families to imagine coming back
to Lathrop or new families coming to Lathrop
because the local school was gone.

You have the opportunity to avoid that. You have a wonderful local elementary school that is directly adjacent to the Ickes site. The CHA has announced redevelop is going to begin. Don't miss this opportunity to make that redevelopment include a great elementary school on-site. And don't let outside

forces -- these communities that are represented here tonight, you deserve both, a new high school and to keep NTA and make it stronger. Don't let anybody from the outside deprive you from the other.

MS. UN: Hi, everyone. My name is Angela. I work for the Coalition for better
Chinese-American Community. And I just wanted to address something that I heard, which was the lack of, like, presence of the Chinese community.

I just want people to know that, like, a lot of the community members have different opinions. And a lot of them are sympathetic. A lot of people, they just don't know about it. But, like, we do try to -- obviously organizations try to -- we've been doing the assessments, and we do try to get the community members out, but, like, a lot of the problem is the language access issue. And I just want people to -- parents to realize that. Like, for example, no one is going to volunteer at Phillips. First of all, it's sort of like -- everybody's parents are going to stay

1 within whatever geographical boundaries you 2 might feel comfortable with language wise. 3 Unless, like, that's just not something that people are going to, like, consider in the list 4 5 of priorities of things, because you're just really, like, working. That's not to say that, 6 like, that shouldn't be happening, that should be happening, but, like, political opposites is so limited. Getting people to register to vote 10 is just so hard because of the language 11 barrier. So I think that some groups are 12 trying, some groups aren't. But I think that 13 ultimately we all like want to not be quiet or 14 absent, to really work together and have like 15 better engagement and be able to speak for 16 ourselves. 17 MR. JOHNSON: Thank you. I would like say 18 that if you have additional questions or 19 comments, you may send them to 20 transitions@cps.edu. And also find presentations at the website 21 22 www.cps.edu/transitions. 23 Let me make these final 24 announcements. On Monday, January 29th, we

January 16, 2018

| | Page 100 |
|----|---|
| 1 | will have the public hearing from 6:00 to 8:30 |
| 2 | at 42 West Madison in front of the judge. |
| 3 | So that's the public hearing |
| 4 | January 29th, from 6:00 to 8:30. |
| 5 | Again, I'd like to acknowledge |
| 6 | those who were present here from the beginning, |
| 7 | Alderman Thompson from the 11th Ward was here. |
| 8 | Alderman Pat Dowell from the 3rd Ward. Also |
| 9 | Principal Castelaz from NTA and principal Tara |
| 10 | Shelton from South Loop. |
| 11 | Thank you, all. Be careful going |
| 12 | home. |
| 13 | (WHEREUPON, the proceedings |
| 14 | were adjourned at 8:00 p.m.) |
